## SUMMARY

Master's student in Biomedical Engineering at Aalto University with a background in applied physics. Experienced in laboratory work, teaching assistance, and computational tools such as MATLAB and Python. Interested in cellular biophysics, medical imaging and technology, and data-driven approaches in healthcare.

## EDUCATION

Aalto University

MSc (Tech), Biomedical Engineering | Minor: Engineering Physics

2026 – Present

BSc, Engineering Physics | Minor: Bio-IT | GPA 4.0/5

2023 – 2026

## EXPERIENCE

Research Assistant | Department of Neuroscience and Biomedical Engineering

Jun 2025 – Oct 2025

- Conducted an extensive literature review within the Cellular Biophysics research group on electrophysiological measurement methods for retinal cells as part of Bachelor's thesis work
- Synthesized scientific findings into a structured thesis, developing skills in critical analysis, scientific writing, and data interpretation

Teaching Assistant | Department of Applied Physics

Sept 2024 – Feb 2026

- Guided students in Mechanics and Structure of Matter laboratories and led problem-solving sessions in Electromagnetism, supporting experimental work, data analysis, and understanding of complex physical concepts
- Instructed and mentored groups of 20+ students, strengthening communication, teaching, and teamwork skills in academic settings

## SKILLS

### Programming :

- Python (numpy, scipy, pandas), Machine learning (sci-kit learn), MATLAB (data-analysis, simulations), Scala, Jupyter Notebooks
- Projects: Brain tumor growth modelling with diffusion models

### Tools :

Office Suite (Excel, Word, PowerPoint), LaTeX

## LANGUAGES

Finnish: Native

English: Proficient

Swedish: Intermediate

## LEADERSHIP & VOLUNTEERING

Scout Leader | Kaukupartio ry

2019 – Present

Led and supervised groups of young scouts in weekly activities and camps

Student representative | Life Sciences Program

Jan 2026 – Present

Represented student perspectives in program-level discussions and decision-making

Study Tutor | Guild of Physics

Sep 2025 – Present

Mentored new students, supporting their transition into university studies
